Dear Fred

Thanks again for doing a fantastic job.

Our first experience with PS4U was in 2006, when we decided to engage your services to help us find our first investment property. At the time we were totally ignorant in the process of how to acquire one.

Now 4 years on, without hesitation, we have engaged your services again. You have again given us your invaluable knowledge, time and expertise in buying our second investment in Richlands, Queensland.

This time was much less stressful for us than the first time as we could fully trust your services and could rely on you totally to organize the search, solicitor, conveyance, building inspections, strata inspection negotiations and handing the keys.

We take this opportunity to thank you again for assisting us in acquiring our second investment property and would not hesitate to use your services again in the future, or recommend them to our family and friends.

With kind regards.
